25X1

1. This road, part of the strategically important North-South Highway, was to be ready by the middle of 1953. The section Hodmezővásárhely - Orosháza has, however, only been completed in August 1954.
2. At Vásárhelykutas (now Székkutas), a 4-km.-long by-pass has been built which skirts the village and avoids the rail crossings.
3. The road is about 8 m. wide including the 70-cm. paths on each side. It has a good concrete surface and a carrying capacity of 80 - 90 tons.
